

# International Conference on Thin Films & Nanotechnology 2021 : Knowledge, Leadership & Commercialization

## Keynote Abstract

---

### Leadership, Entrepreneurship and Research Ethics

K Ananth Krishnan

Executive Vice President and Chief Technology Officer,  
Tata Consultancy Services.

Speaking on the topic of “Leadership, Entrepreneurship and Research Ethics”, Ananth will begin with the five tenets that have guided his career and are essential for leadership. While discussing research ethics, he will outline how ‘leading change’, and ‘learning and sharing’ are important values for the research community. Ananth will also talk about what a young innovator or entrepreneur must go after, and the phases of growth an innovation must pass through. He will highlight the value of connecting to larger ecosystems in the innovation landscape for entrepreneurs.
